Voicing Our Individual and Community Experiences

The Massachusetts Transgender Political Coalition, Fenway Health, and Brown University seek transgender adult volunteers living in Massachusetts or Rhode Island to take part in an online survey on stress and health.

YOU MAY BE ELIGIBLE TO PARTICIPATE IF YOU:

- Are transgender, genderqueer, non-binary, gender non-conforming or have another non-cisgender identity
- Are age 18 years or older
- Live or have lived in Massachusetts or Rhode Island in the past year

The purpose of this needs assessment is to gain a deeper understanding of the health of transgender adult communities in Massachusetts and Rhode Island, including the social stressors that influence health and wellbeing for transgender people throughout their lives.

We are raffling off \$1,000 to eligible participants. Participants who choose to be entered into the raffle have a chance to win one of 54 gift cards (card values range from \$10 to \$250).
